

FOR IMMEDIATE RELEASE

“DEQ Poker Room Bonus driven by GES Technology”

Las Vegas - September 21, 2015 - DEQ Systems Corporation (TSXV: DEQ), a leading provider of Proprietary Table Games, Table Game Systems and Table Game Linking Solutions and Gaming Entertainment Systems (GES) announce an exclusive license agreement for DEQ to launch the “Poker Room Bonus” system in North America.

The agreement facilitates the integration enables DEQ to utilize GES’ innovative wireless and web based technology to offer a powerful and flexible jackpot and bonus system designed specifically for poker rooms.

The DEQ “Poker Room Bonus” system allows card room operators to configure their own jackpot and bonus prize structures to drive player attendance and reward player loyalty. Utilizing cutting edge technology the system is compact yet powerful and allows the operator to use their existing computer hardware and display screens.

Joe Bertolone, President and CEO of DEQ commented, “Partnering with GES has enabled DEQ to grow its global business even further. The Poker Room Bonus system is a fantastic addition to our growing progressive offerings. We are happy to bring this excitement to Poker Room operators.”
